

Don't Expect to be Cured of Fiery Skin Diseases

By Old-Time, Out of Date Methods
of Treatment.

Usually those who continue to suffer from stubborn ailments are those who refuse absolutely to heed the teachings of medical science. New discoveries are being constantly made, and those who fail to take advantage of the wonderful accomplishments of men of science will continue under the handicap of disease.

Your eczema, tetter, boils, pimples, acne, scaly skin eruptions, and burning fiery irritations that cause so much discomfort by their terrifying itching, come from a tiny disease germ in your blood, which multiplies by the millions. These germs find some weak spot where they can break through the skin and set up their attack, and if you have ever had any form of these skin disorders, you know what real torture is.

The reason these disorders appear so stubborn and hard to get rid of, is because they are not given the proper sort of treatment. In other words, the irritation and itching becomes so intense that the patient thinks only of relieving this discomfort, instead of directing his efforts toward getting rid of the cause of it all. Hence the constant use of lotions, salves, soaps and ointments can make no

impression whatever on your trouble, other than to afford some temporary relief.

But why be content with mere temporary relief? Are you not desirous of being permanently rid of this annoying trouble that is a source of such constant torture? Wouldn't you give almost anything to be once more free from the itching and burning that makes your skin seem like it was on fire?

Then throw aside at once such makeshift treatment that can only reach the surface, and begin taking a remedy that goes direct to the source of your trouble. Go to your drug store, get a bottle of S.S.S. and begin a thorough course of this fine old blood medicine that kills the germs that creep into the blood and cause all of your skin discomfort. S.S.S. is a purely vegetable compound, made from roots and herbs of recognized medicinal value. It so thoroughly cleanses and purifies the blood that the germs of disease are eliminated, and then real relief comes.

This fine old remedy is the sane and sensible treatment for your skin disease, as you will find by giving it a trial. If your case should need special advice, it can be had without cost to you, by writing to Chief Medical Adviser, 14 Swift Laboratory, Atlanta, Ga.
